

SailPoint's IdentityTV and Developer Days Return

May 8, 2025

Bold perspectives, breakthrough technology, hands-on learning and the brightest minds in identity security take the virtual stage

AUSTIN, Texas--(BUSINESS WIRE)--May 8, 2025-- SailPoint, Inc. (Nasdaq: SAIL), a leader in unified identity security for enterprises, is bringing back IdentityTV and Developer Days for a series of immersive learning opportunities from two distinct altitudes. IdentityTV brings together the foremost voices in identity security to share insights, unveil innovations, and help organizations strengthen their identity posture amid a rapidly evolving digital threat landscape. Developer Days is tailored for global identity practitioners and problem-solvers who thrive on innovation and the endless possibilities that SailPoint's platform offers.

IdentityTV 2025 | May 20, 2025

Cyberattacks are growing in sophistication, volume, and velocity, leaving security teams struggling to stay ahead of increasingly sophisticated threats. Meanwhile, regulatory pressures continue to mount as global data protection standards evolve. And identity security is no longer just an IT concern—we believe it's a business-critical competency that has been increasingly prioritized by the C-suite.

IdentityTV offers practical solutions and strategic foresight to help organizations address these realities. Whether you're a security practitioner, technology decision-maker or business leader, IdentityTV will equip you with strategic guidance and actionable takeaways. Attendees will:

- Hear from Chandra Gnanasambandam, SailPoint's new EVP of Product and Chief Technology Officer. Chandra will share his perspective on enterprise cybersecurity priorities and how SailPoint is reimagining identity security.
- Get an inside look at SailPoint's product and customer experience innovation and momentum, including SailPoint's latest advances in digital workforce, AI agent protection, machine identity safeguards, and automated application security. Plus, dive into the new Success Acceleration Service Packages (SASP), designed to help customers achieve measurable value faster. This session will be led by Chief Customer Officer Meredith Blanchar and SVP of Product Ben Cody.
- Explore SailPoint's insights on innovation in AI and risk mitigation, including securing AI agents, leveraging AI for stronger identity protection, and the critical role of identity as the frontline defense against cyber threats. Speakers from Accenture, CareSource, Devon and Cornwall Police, UK, GXS Bank, Hearst, Main Line Health, PwC, and Telenet will also share insights into their identity journeys.

"IdentityTV and Developer Days aren't just another set of virtual events—these are curated experiences designed to inspire new thinking, invite deep learning, challenge assumptions, and equip attendees with actionable strategies to advance their identity security programs," said Wendy Wu, CMO, SailPoint. "We're tackling the industry's biggest challenges head-on—from the accelerating AI threats to navigating the growing pressure of global security regulations—and providing real-world strategies and hands-on training required to stay ahead. IdentityTV and Developer Days are where strategy meets action."

Developer Days 2025 | May 21-22, 2025

Developer Days 2025 is SailPoint's third annual conference for the hands-on-keyboard problem solvers in identity. This conference, borne out of the endeavors of technical, identity professionals, is an homage to those looking to extend SailPoint's platform beyond what comes out of the box. This year, Developer Days will include presentations from customers, partners, and SailPoint employees diving deep into technical explorations and showcasing the finest integrations and extensions of our platform.

Developer Days attendees can expect:

- Keynotes from SailPoint product leadership
- A showcase of hands-on, technical solutions, including SailPoint's latest innovations like Harbor Pilot
- Tailored sessions for every skill level, from beginner to expert
- Roundtables with industry experts on key topics including the future of AI in identity security and enterprise security through the lens of identity
- Demonstrations of SailPoint developer tools
